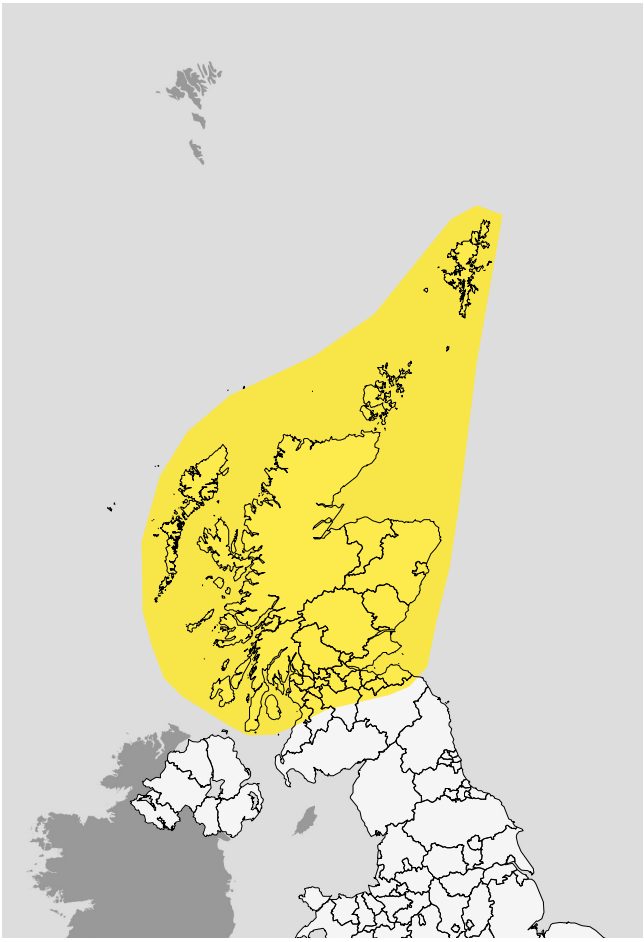
Yellow warning
Wind

Between
20:00 Tue 31 Jan 2023 and
09:00 Wed 1 Feb 2023



Very strong winds expected to bring some disruption to parts of Scotland.

What to expect

- There is a small chance of injuries and danger to life from flying debris
- There is a slight chance of some damage to buildings, such as tiles blown from roofs
- There is a small chance of longer journey times or cancellations as road, rail, air and ferry services are affected
- There is a small chance that some roads and bridges could close
- There is a slight chance that power cuts may occur, with the potential to affect other services, such as mobile phone coverage
- There is a small chance that injuries and danger to life could occur from large waves and beach material being thrown onto sea fronts, coastal roads and properties

Yellow warning
Wind

Between
20:00 Tue 31 Jan 2023 and
09:00 Wed 1 Feb 2023

Further details

A deep area of low pressure is expected to pass to the north of Scotland later on Tuesday, clearing away to the east during Wednesday. Whilst at this stage there is still some uncertainty regarding the onset of strongest winds and to what extent more populated areas of the Central Belt are also affected, this will bring a swathe of very strong winds to parts of Scotland. Gusts of 60 mph can be expected fairly widely, but there is potential for gusts as high as 80 mph, this most likely over the north of mainland Scotland, Lewis and Orkney.

Very low likelihood of medium impacts
